

Techelons- Annual Technical Festival

Websters, the Computer Science society, organized its Annual technical fest '**Techelons**' on April 13, 2023. Pre-events were held on April 12, 2023 to mark the beginning of the festivities. Technical events like **Dark Coding, Googler Brainiac Buster** were held. The event witnessed tremendous response from students.

Mr. Manoj Yadav, Founder and Engineering Head , Prismberry Technologies, was the Chief Guest and inaugural speaker for Techelons. He delivered an Inaugural lecture on “**How AI and ML will reshape Software Engineering**”. The fest comprised of technical and non-technical events.

The following events were held :-

1. AI Artistry- Image Generation using AI Tools Competition
2. Web Hive- Web Designing Competition
3. Whatzapper- Championing the art of texting
4. E-Lafda- LAN Gaming Competition

More than 500 registrations were received. The event witnessed participation from different Colleges of Delhi University, IPU and Chandigarh University. The fest concluded with a valedictory ceremony. All winners were congratulated.
